

History

Natural Products

The tradition that lives...

Our company which continues to produce natural soap as a family tradition by branding with the name of History in 1994 provides Turkish herbal soaps with olive oil, produced traditionally in Anatolian for centuries, to the domestic and abroad market by strengthening the quality and diversity.

History creates the principles about to do and improve it naturally and traditionally from production phrase to packaging and form of sales, and aims to provide the special one to the consumer actually in this way. Our soaps are produced with hot cooking method by enriching herbals and herb essence oils and all of them are in 100% natural olive oil. Not withstanding, hot cooking method is mostly abandoned because of its inconvenience in our present, History proceeds on his way by making no concessions to this issue. It has provided the goods which were tested dermatological, and suited for quality standards in accordance with ISO 9001 and ISO 22716 (Good Manufacturing Practices in Cosmetic (GMP)) by combining the necessities of modern life with this manufacturing method coming from the past. It is produced soaps with camomile, lavender, cinnamon, seaweed, juniper tar, clove, stinging nettle, laurel, olive oil, rose as well as 100% olive oil and special laurel soap. It is possible to manufacture the soap with different scents if requested.

Moreover, our company can response special packaging and branding requests if demanded.

A decorative border of various tropical leaves, including Monstera and Philodendron, frames the central text. The leaves are in shades of green and are positioned around the edges of the image.

What is Vegan?

We are applying the vision of 'natural feeling products' into our vegan products as well. We are aware that for a Vegan, it is important to know the ingredients of the products along with its production process. Per our Vegan Product Policy, History Soap does not use any animals as test subjects

We guarantee that all our products are Vegan.

We conduct dermatological tests for the effects of our products on human body by using volunteer human test subjects. As part of our production policy, we endorse the development of alternative testing methods.

We confirm that;

We don't use any animal test subjects and animal-related products at any stage of the production

We conduct dermatological tests on volunteer human test subjects

All our products are natural products with vegetable oil

V-LABEL Certification

The V-LABEL is an internationally recognised certification, registered symbol for labelling vegan and vegetarian products and services.

V-LABEL is a unique seal of quality for vegan and vegetarian products in cosmetics, clothing, food, approved by European Vegetarian Union (EVU). Herbal Soaps With Camomile

Camomiles symbolize purity, innocence, elegance and delicacy. Rumour has it that this nice flower was created by sky goddess, Asterea. When Asterea looked at the sky from Gods land, she saw there was no star and began to cry. They say that these elegance flowers revealed from the place where Goddess' tears dropped.

The Ancient Egyptians have used camomile in the consecration ceremony to Gods. In the middle of Europe, it has been believed that camomile gave the nearest herbs spirit as well. So, farmers have absolutely sown 'May camomile' among the herbs they grew. The crown made of camomile are famous at the celebrations in summer festivals. It has been believed that first camomile of year brought luck. In the middle age, Young boys have believed that they grew up quickly by holding the bouquets of camomile in their hands. Young girls have counted by plucking the leaves of camomile, so they've learned if they're loved. The girls, in the marriageable age, put the bouquet of camomile over their eyes, and counted how many camomiles covered their eyes, they've believed that the number of camomile has specified how many years later they would have married.

Cleopatra, who found out the natural scent and many useful properties within the camomile, had assigned to several scholars and private beauty specialists for using it in order to picking camomile and to create a beauty elixir. When they discovered the soap Cleopatra was pleased so much and she has used this soap which gilded the lily every day.

Herbal Soaps With Lavender

It is one the most lovable and favourite herbs by people as colour and scent. Aphrodite has preferred to use soap and essences with lavender in the bath because of these features. While her hair, bright as far as sun, were enchanting around, the vitality of her skin has ravished the men. Everyone envied her beauty, but they couldn't find the formula of her beauty in no way. It has been believed it was not coincidence that the birth of Aphrodite, goddess of love and beauty, has corresponded with the spring when lavender flower blossomed.

It has been used as a herb which was analgesic, antibacterial, antidepressant, and prevented sleep disturbances in different communities and cultures for centuries. The floor of buildings was covered with lavender for protecting plague in the middle age and Renaissance. Mother of Jesus loved lavender so much because of keeping moths away from the clothes. The lavender which was used in ancient Egypt for mummification process has been used in the struggle for psychological problems in India and Thibet.

Herbal Soaps With Rose

The history of rose which its scent is accepted as a symbol of peace in all religions goes long way back. The marvellous scent of rose has ravished in Chinese and Sanskrit writings and the oils with rose fragrance were utilized in religious ceremonies. The oldest information about distillation of the rose and obtainment of rose distillate product was given by Ibn Haldun, author of Arabic history, and he has notified that rose water was a commercial product to be delivered to China and India in the 8th and 9th centuries. Persia rose water has been mentioned as beauty water by the year of 946 in a ceremony pharmacopeia of Constantine VII, Roma Emperor. Rumour has it that the production of rose oil had been considered by Nevcihan, the daughter of shah of Iran in 14th century at first. The pools were filled with rose water instead of water in the wedding ceremony of Nevcihan and Cihangir at the garden of palace. Nevcihan saw the oil- accumulate over the water, and ordered to separate them.

Herbal Soaps With Cinnamon

The scientific word of "Cinnamomum" for cinnamon derives from "kinnamomon" word in Greek. It is one of the oldest spices in the history of humanity. Chinese people have applied to the cortexes of cinnamon for remedy of many diseases in 3000 B.C. It has been mentioned about the benefits of cinnamon in medicinal plants books written in that period. It has not only been used for adding aroma to the food and beverages, but also for mummification process. It has been believed that cinnamon was more valuable than gold. It was commonly used as a herb in the middle age. Cinnamon herb has been a symbol of richness, power and ability. Anton Fugger, the famous tradesman had burnt the bills of debt of Emperor V. Karl before his eyes with the fire consisted of cinnamon cortexes, so he has proved his own richness.

Herbal Soaps With Seaweed

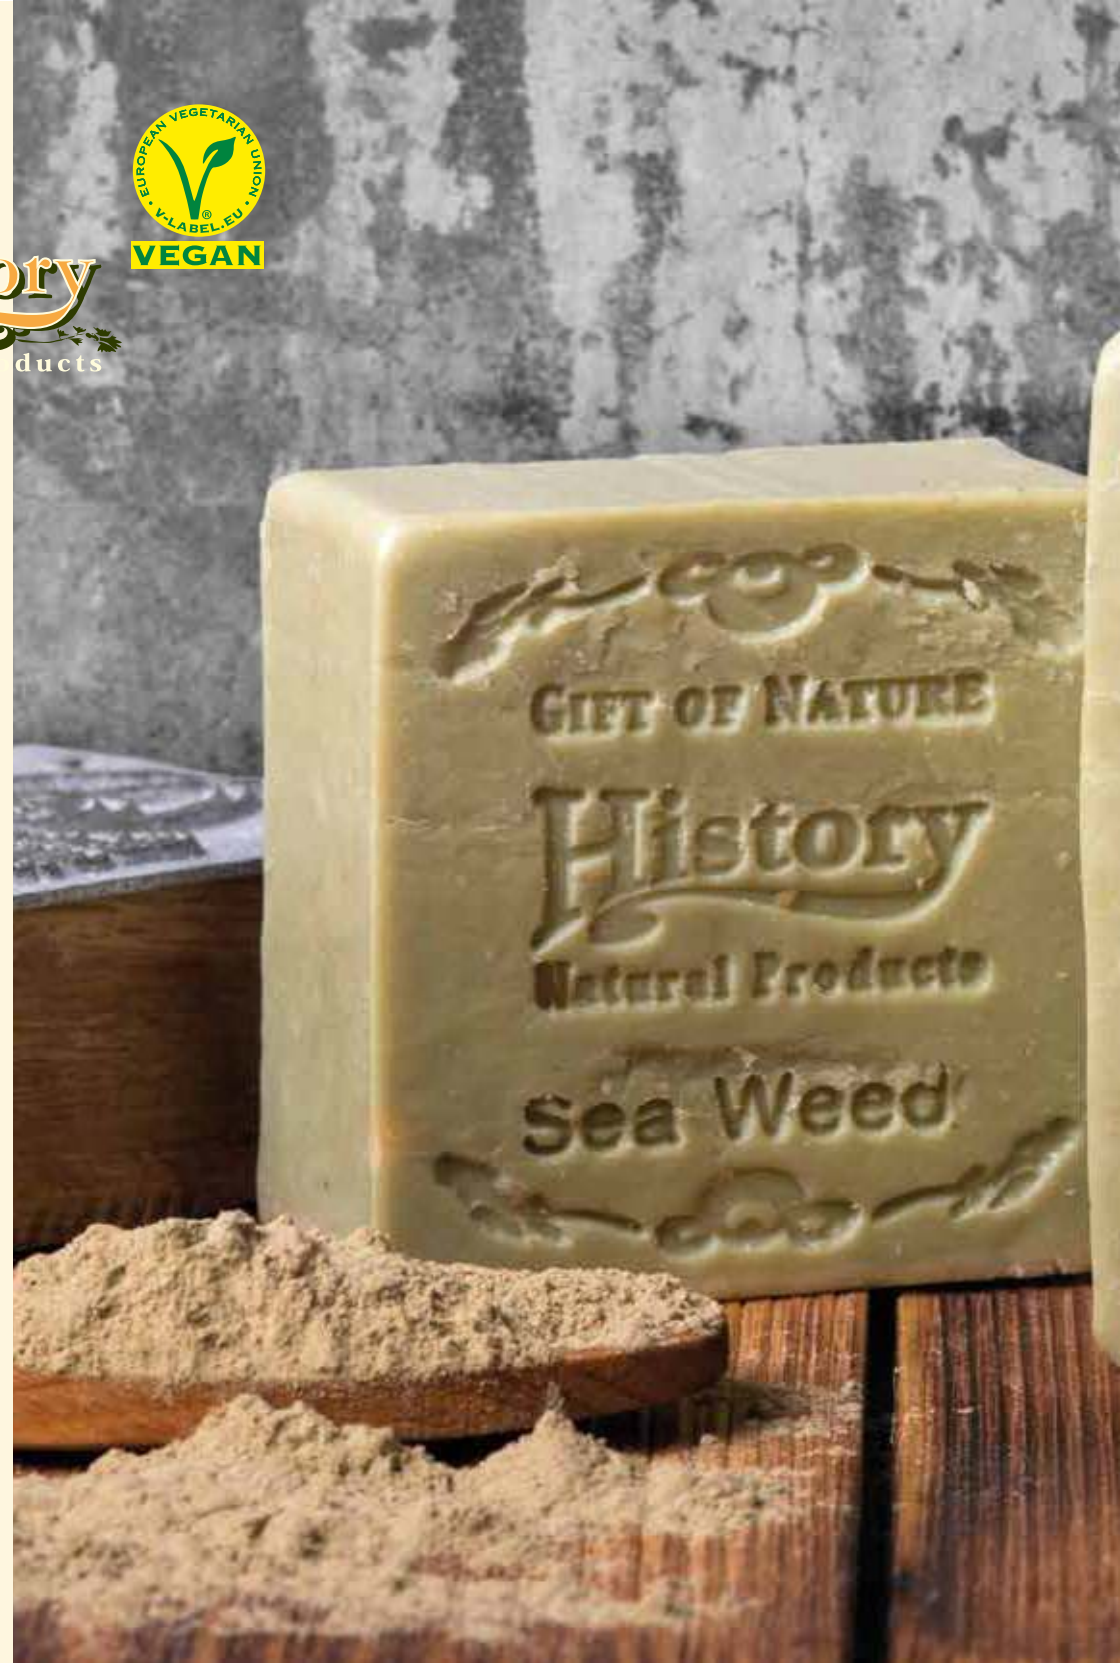

The cellulite is a skin problem which causes the bad appearance in the skin. This situation can be seen in weak people even though the main reason of cellulite which causes dimply and rough appearance is excess weight. For disposing of this appearance, it is usually applied to the methods such as cellulite creams and cellulite treatment with laser. But natural solutions for cellulite problem give quite effective results. The beauty centres which make skin care with seaweed are crying up the benefits of seaweed. Seaweeds include highly salt, protein, mineral and vitamin. They are rich in terms of calcium, phosphor and iodine. There are vitamin A, C, B1, B2, B6, B12, E in seaweeds.

Vitamin A is playing an important role to balance the skin; Vitamin B is playing an important role to shine the skin; vitamin C is playing an important role to absorb collagen. Vitamin E helps to prevent wrinkling the skin.

Herbal Soaps With Clove

Chinese emperors and aristocracy would have not met without treating clove for bad breath to all their visitors in 3th century B.C. Clove was used as spice in ancient Roma We can show the statement of Roman Plinus "Each year, India was drying Roma Empire with 50 million sesterces." as an evidence in order to prove the high price of clove First and Middle Age of Western Civilizations. (Sesterce is the coin of ancient Rome. It was shaped as grand bronze coin in Rome Empire as a small silver coin in Rome Republic.) Clove has been known in Europe again dating from 15th century. Netherlanders have quite enriched by cartel in clove trade. Amsterdam and Rotterdam are still considered as grand clove bazaars. Clove in England was equivalent with the gold because of high price in 17th and 18th century.

Herbal Soaps With Juniper Tar

It has been used by Roman women in the past because of the urine smelt violet once juniper tar, it was known as nostrum, was eaten in the middle age; Once again, it has been planted in front of the holiday homes with the purpose of protecting witches in these centuries. Nevertheless, according to the belief, if a witch could manage to count the leaves of juniper tar, s/he would have entered into the house. For preventing it, many juniper tars have been planted as far as possible. When priest Kneipp found out the juniper tar, he became famous. It was utilized in each area of medicine. For obtaining the juniper tar, it was burnt in the jug after putting in the dirt half and half by cutting the old leaves, its stem and roots. Tar is taken from the bottom by resting the acquired oil with water. Juniper tar is used for a lot of skin diseases.

Herbal Soaps With Olive Oil

Olive is a fruit known and assessed by people since 4000 years. In many sources, it is the homeland of olives Mesopotamia, is reported to spread from there to the Mediterranean countries. BC found in excavations in Mesopotamia The illustrations of the 2000s, it seems to have served olive the kings of to guests. Throughout history,olive is symbolizes peace,friendship and plentifulness; If the time of expedition of Great Alexander , spread to the aegean and Mediterranean , In later times, the Romans who occupied the Aegean and Mediterranean coasts, is met with olive through Phrygian and Phoenicians. move to Europe in amphoras of Roman ships is olive, thus opens the world. It is believed that the olive tree is sacred. Noah's Ark to the beak of pigeons heralding the continuing life had an olive branch. To Noah's Ark heralding the continuing life the beak of pigeons had an olive branch. The founder of the city of Athens Kekrops said "Self-born again and can not be eliminated" for olive trees and he has shown that how to extracted oil from the fruit. Pallas Athena the goddess of peace, With a thrust of a spear create the olive tree in the Acropolis, He taught how to planted trees. The 5 holy fruit have mentioned of the holy books of all true religions. These; figs, dates, grapes, pomegranates and olives. It is symbol of Abundance, justice, health, peace, victory, pride, wisdom, intelligence, immortality, purification and rebirth. Its name is always mentioned in all scriptures and thousands of years of stories.
